

PRASANNA SATISH DESAI

SOFTWARE DEVELOPER

aryandesai0098@gmail.com | Kolhapur, Maharashtra | github.com/Aryandesai07

PROFESSIONAL SUMMARY

Computer Science postgraduate with 2 years of academic and project experience in Python and full-stack application development. Hands-on experience with FastAPI, REST APIs, React, React Native, Flutter, PostgreSQL, Supabase, authentication, AI-integrated applications, cloud deployment, debugging, and testing. Strong focus on building practical, database-driven software solutions.

TECHNICAL SKILLS

Languages:	Python, JavaScript, TypeScript, Dart, SQL
Backend:	FastAPI, REST APIs
Frontend / Mobile:	React, React Native, Expo, Flutter
Databases:	PostgreSQL, SQLite, Supabase
Cloud / Tools:	Render, Vercel, Cloudinary, Git, GitHub, Postman

EXPERIENCE

Full-Stack Developer

Academic & Personal Projects

- Engineered 2 end-to-end application projects across frontend, backend, APIs, databases, authentication, and deployment.
- Built REST APIs and database-driven workflows using Python, FastAPI, PostgreSQL, React, React Native, and Flutter.
- Integrated AI and third-party services and performed debugging, testing, and deployment activities.

SnapDiet — AI Food Recognition & Nutrition App

- Built an AI-based mobile application for food recognition and personalized nutrition using React Native, FastAPI, and PostgreSQL.
- Implemented AI food analysis, nutrition tracking, user profiles, personalized recommendations, API integration, database workflows, and authentication.

Golden Transport — Smart Transport Management System

- Built a transport management system using FastAPI, PostgreSQL, React Native, and Flutter.
- Implemented driver, trip, delivery, fuel bill, notification, location tracking, cloud deployment, and file management workflows.

EDUCATION

Master of Computer Applications — Sanjay Ghodawat University

B.Sc. Computer Science — The New College, Shivaji Peth, Kolhapur

CERTIFICATIONS & PROFESSIONAL DEVELOPMENT

NPTEL: Research and Publication Ethics

Certificate of Participation: Career Guidance Session

ACHIEVEMENTS

- Delivered complete full-stack applications spanning frontend, backend, database, API, authentication, and deployment layers.
- Implemented AI-based functionality for food recognition and nutrition analysis.
- Gained hands-on experience with modern cloud deployment platforms and developer tools.
